

BRITISH STANDARDS INSTITUTION

Workshop on

"Food Safety Regulations"

In view of the growing concern of food safety issues by the public, the Government has introduced amendment on existing legislation and the "Food Safety Bill" to enhance the control from raw materials to finished product.

How the recently implemented "Nutritional Labeling Regulations"; "Section 78B of Cap.132" affect your business? How can you get prepared for the "Food Safety Bill" including "Keeping Records Relating to Food Requirements" which is still under discussion in Legislative Council?

BSI is going to organize a one-day course on 17th Feb (Thursday) to introduce the updated Food Regulations and "Food Safety Bill" in Hong Kong. This workshop will be conducted by BSI food expert.

All food traders (e.g. catering, food manufacturing, food suppliers, and retailers) are welcomed to join.
